

I'm writing w/ concern over the expanding LPFM service you're considering. This may impact several stations that greatly influence the community in the Tidewater area, namely K-LOVE heard on 90.7. The ratio between christian & secular radio stations are slim on the peninsula & besides being "positive & encouraging" K-LOVE encourages us in a Christ centered walk; namely service & prayer. Not many other stations I know of encourage service. Many of the people I volunteer w/ also listen to K-LOVE, & I'm not sure that that's a fluke. The senior citizens I drive enjoy listening to K-LOVE. I don't have to worry about being embarrassed, or embarrassing them by the lyrics on the radio. I'm not going to claim that society will go to hell in a handbasket w/out this station, because it probably won't. However the messages & values played over K-LOVE help us Christians to be less hypocritical; one of the chief complaints in non-Christians. We desperately need that encouragement when we're by ourselves. People are stronger when they stand together & K-LOVE gives us someone to stand w/. I thank you for allowing an opportunity to voice an opinion.-
